Recycle any unused portion of the material for its approved use or return it to the manufacturer or supplier. Ultimate disposal of the chemical must consider: the material's impact on air quality; potential migration in soil or water; effects on animal, aquatic, and plant life; and conformance with environmental and public health regulations.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling

Commercially available ritonavir oral solution should be stored at room temperature at 20-25°C; the oral solution should not be refrigerated. Exposure to excessive heat should be avoided. Ritonavir oral solution should be stored in the manufacturer-provided amber bottle and protected from light.
