SRP: At the time of review, criteria for land treatment or burial (sanitary landfill) disposal practices are subject to significant revision. Prior to implementing land disposal of waste residue (including waste sludge), consult with environmental regulatory agencies for guidance on acceptable disposal practices.

Partially used vials of cidofovir and diluted solutions should be discarded by high temperature incineration.

Caution should be exercised in preparing, administering, and discarding solutions of cidofovir according to guidelines for handling mutagenic substances. If cidofovir concentrate for injection or a dilute solution of the drug comes in contact with the skin or mucosa, the affected area should be washed immediately and thoroughly with soap and water.
